1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Roffe on March 9, 2005 and March 10, 2005.

The application has been amended as follows: claims 29-34 and 38 have been canceled.

Note, claim 28 has been rejoined as it depends from an allowable claim generic to that specie.

2. The drawings are clearly informal as they have blurred lines and hand drawn characters. Formal drawings are now required.

3. The following is an examiner's statement of reasons for allowance: the wall and support structures, in combination with the other claimed elements, are not found in the prior art. Further, the details of the jarring and regulating of the dispenser, in combination with the other claimed elements, are also not shown in the prior art. Claim 39 merely places previously indicated allowable subject matter into independent form.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
